FOR IMMEDIATE RELEASE:

US Flight Academy – Listed Top 10 Aviation Academies

Denton, TX – US Flight Academy was listed in the top ten aviation academies according to the 2008 edition of Plane & Pilot “Learn to Fly and Aviation Careers” Magazine. President and CEO, Mike Sykes stated, “we are honored to earn such high recognition. This level of acknowledgement demonstrates not only our commitment to excellence in aviation education, but reaffirms our business strategy to become the premier flight school in the nation.”

The 2008 Learn to Fly and Aviation Careers magazine reports that that if your ultimate goal is to become a pilot for a commercial airline, you will benefit from an aviation training academy. Most training academies are affiliated with one or more regional carriers and help funnel pilots directly to the right seats of regional jet operations. US Flight Academy has Mesa Airlines and Colgan Airlines as part of their regional airline pilot hiring partnership program.

One feature that draws students to an academy is the accelerated training pace, which is like an airline environment and trains faster. “Our fast-paced training environment encourages

students to excel," says Sykes. Many academies also offer a college degree program in conjunction with flight training. US Aviation group is approved for flight training under Utah Valley University "Global Aviation Degree Center" and UVU is Accredited by the Northwest Commission on Colleges and Universities.

Chris Ramey of US Flight Academy Admissions states, "we run the gamut of flight training - anything from sport pilot through airline transportation pilot (ATP)." Ramey further stated, "Our accelerated training regiment allows us to train a first-time student from zero time to a Certified Flight Instructor (CFI) in just 8 months, zero time to Certified Flight Instructor - Instructor (CFII) in 9 months and zero time to Multi-Engine Instructor (MEI) in 10 months. Our Commercial Pilot Program can be completed in 6 months."

If you're considering a career as a commercial pilot and want to train with one of top flight training academies in the nation, US Flight Academy of Denton Texas is a great place to start.

For further information regarding admissions, contact Chris Ramey (1-866-383-2400) ext 26.
